DENIAL

OF STATE ENGINEER

~~This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:~~

This application is hereby denied on the grounds that the Carson River is fully appropriated and there is no water available for appropriation and the granting thereof would impair the value of existing rights and threaten to prove detrimental to the public interest. No ruling is made on the merits of the protest.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed \_\_\_\_\_ cubic feet per second.

Actual construction work shall begin on or before \_\_\_\_\_

Proof of commencement of work shall be filed before \_\_\_\_\_

Work must be prosecuted with reasonable diligence and be completed on or before \_\_\_\_\_

Proof of completion of work shall be filed before \_\_\_\_\_

Application of water to beneficial use shall be made on or before \_\_\_\_\_

\_\_\_\_\_. Proof of the application of water to beneficial use must be filed with State Engineer on or before \_\_\_\_\_

for Tracy Taylor, P.E.  
State Engineer.

This application is for the right to store water in Lahontan Reservoir in addition to the rights of the United States acquired July 2, 1902 by land withdrawals and by intention of the United States as disclosed by the "otice posted on May 26, 1903, reading as follows:

"NOTICE

Is hereby given that L. H. Taylor, thereunto duly authorized by the Secretary of the Interior, for and on behalf of the United States of America, claims all unappropriated waters of Carson River, both surface and underflow, at all seasons of the year, to the extent of 5,000 cubic feet per second (250,000 Miners inches measured under a four inch preasure):

That the said water is claimed for irrigation and other beneficial uses on lands within the basin of Carson River in Churchill County in the State of Nevada:

That it is the intention to impound the said water, when the same is not required for the above uses, in a storage reservoir to be formed by the construction of a dam at this point to a height of approximately 110 feet above the stream bed, whence it will be diverted into cananls haveing bed widths of approximately 10 feet, and conducted therein to the points of use.

This notice is posted on the left bank of the Carson River about 1,000 feet below the Wightman Dam in the SE $\frac{1}{4}$  of Section 33, T. 19 N; R . 26 E., M.D.M., in Churchill County, Nevada, this 26th day of May, 1903.

L. H. Taylor

For the Secretary of the Interior,  
for and on behalf of the United  
States of America.

Witness: Amos Jones."

The applicant intends to raise the control level of the Lahontan Dam 8 feet, and thereby increase its storage capacity 100,000 acre feet, making a total capacity of said reservoir of 394,000 acre feet.

This application is made without any prejudice to the rights now held and acquired by the United States and/or the applicant, but is expressly made in addition to such rights and the water proposed to be stored will be used in connection with the present storage rights of the United States and/or the Truckee-Carson Irrigation District, in the same manner and through the same diversion works that waters of the Carson River are now stored and diverted from Lahontan Reservoir for irrigation use in the Newlands Reclamation Project upon the lands described in this application.
